### **African Cichlids I Malawimbuna Aqualogreference Books [EBOOK]**

African Mouthbrooding Cichlids. The vast majority of the species discussed here originate from the Great Lakes of the African Rift Valley, namely Lake Tanganyika (around 670 km long and 50 wide), Lake Malawi (around 560 km long and up to 80 wide), and Lake Victoria (around 340 km long and 250 wide).

## Download Free Aqualog African Cichlids I Malawi Mbuna

They are members of the family Cichlidae, and share the common feature that the females alone brood the eggs and young in their mouths and sometimes look after the fry for a while after release.

### **African Mouthbrooding Cichlids - Aqualog.de**

Cichlids (family Cichlidae) are a very species-rich family, with around 1,700 species in some 230 genera. Almost all of them live in fresh water. Many species are very important as food fishes all over the world, and some (tilapias) are bred in fish farms worldwide. The cichlids are also among the most important fishes in the aquarium hobby. They range from dwarf species that grow to only 4-5 ...
