Focolare, Community of Sant'Egidio, Neocatechumenal Way, Legionaries of Christ, Communion and Liberation, Opus Dei. These are but a few of the most recognizable names in the broader context of the so-called ecclesial movements. Their history goes back to the period following the First Vatican Council, crosses Vatican II, and develops throughout the twentieth century. It is a history that prepares the movements' rise in the last three decades, from John Paul II to Francis. These movements are a complex phenomenon that shapes the Church now more than before, and they play a key role for the future of Catholicism as a global community, in transition from a Europe-centered tradition to a world Church.

Elvio Fachinelli was a leading Italian psychoanalyst of the 1960s-80s whose clinical, theoretical, and radical work resonated well beyond his discipline. In *The Still Arrow*, Fachinelli launched an interdisciplinary investigation ranging from anthropology to politics and the history of religions to the critique of ideology. From a psychoanalytic standpoint, individual obsessional neurosis is firmly connected to a process of repudiation of death. But Fachinelli argued that similar elaborations on time are also present at the group level, in disparate social and historical contexts, for instance, in the archaic transformation of the dead into ancestors and in what he named "the fascist phenomenon."

Originally written in Italian in 1979, this book displays Fachinelli's eclectic methodology, which came to serve as a precursor to Slavoj Žižek's work. Fachinelli differs from Freud's attempt in Totem and Taboo to equate individual psycho-libidinal predicaments with those of whole societies, and he points out an unbridgeable difference between the two. At the same time, for Fachinelli, that difference always remains one of degree, not of principle. He explores many questions about time, such as history's status not only as the sum of all possible histories but also of impossible ones. This first English translation of Fachinelli's work, *The Still Arrow* introduces a major critical European voice to the larger readership.

Puccini's non-operatic songs, Arie da camera e da chiesa for voice and piano, have never before been collected--many until now have never been published. They cover the entire span of the composer's life: the earliest was written when Puccini was in his teens, the latest when the composer was in his sixties. Working from musical manuscripts, letters, documents, and other sources, Michael Kaye shows Puccini--whose music is the mainstay of every opera house in the world--in a new light. The words and music of fifteen songs, including little-known music from the operas Edgar and La Rondine, are provided. More than a dozen fascinating--some rare--photographs give an extra dimension to the book. About the Author Michael Kaye received his M.M. in opera from the
