The History of Egypt now offered to the English reader is distinguished in two respects from the long train of able and interesting works, which, in opening to the last and the present generations the life and story of the Old Egyptians, as by a new revelation, have at the same time thrown a clear and vivid light on many portions of Holy Scripture. The work is as unique in the competence of its Author as in the originality of its design. After all that has been done since the time when Young and Champollion discovered the key to the vast treasures of contemporary records which till then were a sealed book, it

the general reader and the student of Hellenism. Edwyn Bevan describes his work as ' an attempt to tell afresh the story of a great adventure, Greek rule in the land of the Pharaohs...which ends with the astounding episode of Cleopatra ' . published well over 100 monographs, which shaped the development of future scholarship and are still of great academic value today, dealing with subjects such as Egyptian religion, history and literature. This volume, first published in 1902, is the third of eight volumes by Budge dealing with different periods in the history of Egypt. The narrative continues from the end of the reign of Senkh-ka-R (c. 2500 B.C.), the last king of the XIth Dynasty, to the end of the reign of Thothmes II (c.1550 B.C.). Budge explores this rich and important period of Egyptian history in a classic work of great value to those interested in Egyptology and archaeology.
