I love this Timewaves Series, Legends Untold was captivating. I was so happy once I finished the second book, I was able to jump right into the third right away. Now, unfortunately, I have to wait for the next. Stassi and Charles are moving along nicely, I'm enjoying Molly and Gaige too.

For Stassi and her teammates, only one thing is certain: Heads. Will. Roll. With rebellions rising and the Inquisition marching

towards England, the stakes are higher than ever for the Atlic Syndicate's runners. Their target is sixteen-year old Lady Jane Grey, one of history's most tragic figures. When Stassi and the gang arrive, Jane has just begun her ill-fated reign as Queen of England. The runners thought that penetrating the Tower of London would be their biggest challenge. They were very wrong...

How long does it take for 'astounding' to become 'normal'? Three weeks after returning from her last mission, Stassi 2446-89 is finally ready to move on from the events in Paris, with one exception: the hitchhiker, Charles DuPree. Now living on Branson Isle and training to become the Atlic Syndicate's newest Runner, Charles must adjust to life five hundred years in the future before he can travel the timewaves into the past. But when it's time for a training run in 2465 Manhattan, a ghost from her past makes Stassi question everything.

In a future where time travel has been outlawed, a black market exists for anyone with the money, connections, and nerve to request items from days past. As a Runner for one of the underground syndicates that now controls the timewaves, Stassi 2446-89 has seen it all: the fall of Rome, the rise of Hitler, the end of democracy, the establishment of time tourism, and the devastating consequences of it. Her job is to seamlessly slip through the past, in search of items of value to the syndicate's clientele. Stassi's next assignment takes her to Paris in the 1920's, in search of a lost manuscript by one of the twentieth century's greatest writers. She and her partner, Gaike, are swept up in the City of Light during the height of fashion and culture-as alluring a locale as they've ever visited. But a seedier side of life lurks beneath the glamorous facade, and the pair quickly learns this run is more dangerous than any of their previous missions. Because history isn't playing out as it should be-a first for the syndicate. When the stakes are raised and it becomes a matter of life or death, Stassi and Gaike must ultimately decide how far

they're willing to go to ensure the future as they know it."

When Talia Lyons was just a child, her parents were murdered before her eyes. Offered a choice between accepting their fate and exacting revenge, Talia trains to become one of the country's deadliest assassins in order to kill the man responsible for their deaths: Ian Crane. Luckily, Talia was born with a gift- the ability to read and influence the minds of others. At sixteen, Talia is poised to graduate from the McDonough School for the Talented, where she learned to control her abilities. Now there is only one obstacle standing between her and the retribution she craves... Talia, herself. Her greatest asset may also be her undoing; while a formidable weapon in the field, Talia's talents prevent her from both shutting off the mental connection she shares with her questionable boyfriend and blocking out the thoughts of a beguiling fellow recruit. But Talia can't afford to have the feelings and distractions of a normal teenage girl, when her life is far from normal. She must regain the single-minded determination that has brought her this far, or it may cost Talia her life when she finally faces Crane. And even after being molded in to a weapon of war, she'll still have to find the strength it takes to pull the trigger. If James Bond and Sookie Stackhouse had a love child with a yearning for vengeance, her story would be **TALENTED**: an adventure about powerful teenagers who aren't afraid to embrace their fears and fight for what they believe in.

Discover the wild and wonderful creatures of Thra in this guide to the flora and fauna of the Dark Crystal universe featuring remarkable original illustrations. In a world where rocks talk and trees dispense wisdom from across the ages, anything is possible. The Dark Crystal Bestiary is a comprehensive volume that catalogs the many lifeforms of Thra's unique ecosystem. Drawing from all aspects of the Dark Crystal saga's universe, this book is visually dazzling and filled with enthralling information about all of Thra's

lifeforms, making it the definitive guide to a world of wonders. • Own the most comprehensive guide to the Dark Crystal universe: This book showcases fauna from all corners of Thra, from the vile Skeksis and their noble counterparts, the Mystics, to a whole cornucopia of amazing creatures and critters, including Landstriders, Garthim, Peeper Beetles, Fizzgigs, Pluff'm, and many more fan favorites. • Over 200 fantasy illustrations: Featuring all-new illustrations by Iris Compiet, a protégé of the original Dark Crystal concept artist, Brian Froud, this book will show you the world of Thra as you've never seen it before. • Learn about the world of Thra: The Dark Crystal Bestiary is packed with lore, drawing information from the original film, the hit Netflix show The Dark Crystal: Age of Resistance, comic books, and novels. • An epic addition to your home library: Great for fantasy lovers, The Dark Crystal Bestiary will be a perfect addition to your bookshelf or coffee table.

Lark Kingsley had everything: money, looks, the boyfriend of her dreams, and a secret worth dying for... With the truth of Lark's disappearance nearly in her grasp, Raven will stop at nothing to expose those responsible and find the missing heiress. But will she lose herself in the process?

Did mushroom tea kick-start ancient Greek philosophy? Was Alice's Adventures in Wonderland a thinly veiled psychedelic mushroom odyssey? Is Santa Claus really a magic mushroom in disguise? The world of the magic mushroom is a place where shamans and hippies rub shoulders with psychiatrists, poets, and international bankers. Since its rediscovery only fifty years ago, this hallucinogenic fungus, once shunned in the West as the most

pernicious of poisons, has inspired a plethora of folktales and urban legends. In this timely and definitive study, Andy Letcher chronicles the history of the magic mushroom—from its use by the Aztecs of Central America and the tribes of Siberia through to the present day—stripping away the myths and taking a critical and humorous look at the drug's more recent manifestations. Informative, lively, and impeccably researched, *Shroom* is a unique and engaging exploration of this most extraordinary of psychedelics.

It began with a key. One afternoon in 1956, in the home of the Hitchings family in Battersea, south London, a small silver key appeared on Shirley Hitchings' bed. This seemingly insignificant event heralded the beginning of one of the most terrifying, incredible and mysterious hauntings in British history. The spirit, who quickly became known as 'Donald', began to communicate, initially via tapping sounds, but over time - and with the encouragement of psychical researcher Harold Chibbett, whose case-files appear here - by learning to write. Soon, the spirit had begun to make simply incredible claims about his identity, insisting that he was one of the most famous figures in world history - but what was the truth? Here, for the first time, is the full story, told by the woman right at the heart of it all - Shirley herself.
