From the Nobel Prize-winning author of *My Name Is Red* and *Snow*, a large-format, deluxe, collectible edition of his beloved memoir about life in Istanbul, with more than 200 added illustrations and a new introduction. Orhan Pamuk was born in Istanbul and still lives in the family apartment building where his mother first held him in her arms. His portrait of his city is thus also a self-portrait, refracted by memory and the melancholy--or *hüzün*--that all Istanbulis share: the sadness that comes of living amid the ruins of a lost empire. With cinematic fluidity, Pamuk moves from the lives of his glamorous, unhappy parents to the gorgeous, decrepit mansions overlooking the Bosphorus; from the dawning of his self-consciousness to the writers and painters--both Turkish and foreign--who would shape his consciousness of his city. Like Joyce's *Dublin* and Borges' *Buenos Aires*, Pamuk's *Istanbul* is a triumphant encounter of place and sensibility, beautifully written and immensely moving.

Acclaimed journalist Bernard Ollivier begins his epic journey on foot across the Silk Road. Upon retirement at the age of sixty-two, and grieving his deceased wife, renowned journalist Bernard Ollivier felt a sense of profound emptiness: What do I do now? While some see retirement as a chance to cash in their chips and settle into a comfy armchair, Ollivier still longed for more. Searching for inspiration, he strapped on his gear, donned his hat, and headed out the front door to hike the Way of St. James, a 1400-mile journey from Paris to Compostela, Spain. At the end of that road, with more questions than answers, he decided to spend the next few years hiking another of history's great routes: the Silk Road. Out of

Istanbul is Ollivier's stunning account of the first part of that 7,200-mile journey. The longest and perhaps most mythical trade route of all time, the Silk Road is in fact a network of routes across Europe and Asia, some going back to prehistoric times. During the Middle Ages, the transcribed travelogue of one Silk Road explorer, Marco Polo, helped spread the fame of the Orient throughout Europe. Heading east out of Istanbul, Ollivier takes readers step by step across Anatolia and Kurdistan, bound for Tehran. Along the way, we meet a colorful array of real-life characters: Selim, the philosophical woodsman; old Behçet, elated to practice English after years of self-study; Krishna, manager of the Lora Pansiyon in Polonez, a village of Polish immigrants; the hospitable Kurdish women of Dogutepe, and many more. We accompany Ollivier as he explores bazaars, mosques, and caravansaries—true vestiges of the Silk Road itself—and through these encounters and experiences, gains insight into the complex political and social issues facing modern-day Turkey. Ollivier's journey, far from bragging about some tremendous achievement, humbly takes the reader on a colossal adventure of human proportions, one in which walking itself, through a kind of alchemy, fosters friendships and fellowship.

A "vivid and entertaining" (Chicago Tribune) tale about the tangled history of two families, from the author of *The Island of Missing Trees* (a Reese's Book Club Pick) "Zesty, imaginative . . . a Turkish version of Amy Tan's *The Joy Luck Club*." —USA Today As an Armenian American living in San Francisco, Armanoush feels like part of her identity is missing and that she must make a journey back to the past, to Turkey, in order to start living her life. Asya is a nineteen-year-old woman living in an extended all-female household in Istanbul who loves Jonny Cash and the French existentialists. *The Bastard of Istanbul* tells the story of their two families--and a secret connection linking them to a violent event in the history of their homeland. Filled with humor and understanding, this exuberant, dramatic novel is about memory and forgetting, about the need to examine the past and the desire to erase it, and about Turkey itself.

Istanbul has long been a place where stories and histories collide, where perception is as potent as fact. From the Koran to Shakespeare, this city with three names--Byzantium, Constantinople, Istanbul -- resonates as an idea and a place, real and imagined. Standing as the gateway between East and West, North and South, it has been the capital city of the Roman, Byzantine, and Ottoman Empires. For much of its history it was the very center of the world, known simply as "The City," but, as Bettany Hughes reveals, Istanbul is not just a city, but a global story. In this epic new biography, Hughes takes us on a dazzling historical journey from the Neolithic to the present, through the many incarnations of one of the world's greatest cities--exploring the ways that Istanbul's influence has spun out to shape the wider world. Hughes investigates what it takes to make a city and tells the story not just of emperors, viziers, caliphs, and sultans, but of the poor and the voiceless, of the women and men whose aspirations and dreams have continuously reinvented Istanbul. Written with energy and animation, award-winning historian Bettany Hughes deftly guides readers through Istanbul's rich layers of history. Based on meticulous research and new archaeological evidence, this captivating portrait of the momentous life of Istanbul is visceral, immediate, and authoritative -- narrative history at its finest.

In 1945 Istanbul, American undercover agent Leon Bauer's attempt to save a life leads to a desperate manhunt, a game of shifting loyalties, and an unexpected love affair.

Both intelligent and accessible, this collection pulls readers into the heart of Turkish culture, politics, and history through multifarious narrative frameworks. The testimonials, memories, and confessions that weave through the pages not only birth a new concept of Turkish life from

previously unsung voices, but also tell universal truths about living to which anyone can relate—regardless of background, language, or creed. Providing an enriched experience and taste of modern urban Turkey, these short stories paint Istanbul with many colors, shades, and tones with a luxury that cannot always be afforded by the novel.

“Istanbul, Istanbul turns on the tension between the confines of a prison cell and the vastness of the imagination; between the vulnerable borders of the body and the unassailable depths of the mind. This is a harrowing, riveting novel, as unforgettable as it is inescapable.” —Dale Peck, author of *Visions and Revisions* “A wrenching love poem to Istanbul told between torture sessions by four prisoners in their cell beneath the city. An ode to pain in which Dostoevsky meets *The Decameron*.” —John Ralston Saul, author of *On Equilibrium*; former president, PEN International “Istanbul is a city of a million cells, and every cell is an Istanbul unto itself.” Below the ancient streets of Istanbul, four prisoners—Demirtay the student, the doctor, Kamo the barber, and Uncle Küheylan—sit, awaiting their turn at the hands of their wardens. When they are not subject to unimaginable violence, the condemned tell one another stories about the city, shaded with love and humor, to pass the time. Quiet laughter is the prisoners’ balm, delivered through parables and riddles. Gradually, the underground narrative turns into a narrative of the above-ground. Initially centered around people, the book comes to focus on the city itself. And we discover there is as much suffering and hope in the Istanbul above ground as there is in the cells underground. Despite its apparently bleak setting, this novel—translated into seventeen languages—is about creation, compassion, and the ultimate triumph of the imagination.

Istanbul's history is a catalogue of change, not least of name, yet it has managed to retain its own unique identity. John Freely captures the flavour of daily life as well as court ceremonial and intrigue. The book also includes a comprehensive gazetteer of all major monuments and museums. An in-depth study of this legendary city through its many different ages from its earliest foundation to the present day - the perfect traveller's companion and guide.

One of Time's 12 Books for the History Buffs on Your Holiday Gift List The first single-volume history of Istanbul in decades: a biography of the city at the center of civilizations past and present. For more than two millennia Istanbul has stood at the crossroads of the world, perched at the very tip of Europe, gazing across the shores of Asia. The history of this city--known as Byzantium, then Constantinople, now Istanbul--is at once glorious, outsized, and astounding. Founded by the Greeks, its location blessed it as a center for trade but also made it a target of every empire in history, from Alexander the Great and his Macedonian Empire to the Romans and later the Ottomans. At its most spectacular Emperor Constantine I re-founded the city as New Rome, the capital of the eastern Roman empire, and dramatically expanded the city, filling it with artistic treasures, and adorning the streets with opulent palaces. Around it all Constantine built new walls, truly impregnable, that preserved power, wealth, and withstood any aggressor--walls that still stand for tourists to visit. From its ancient past to the present, we meet the city through its ordinary citizens--the Jews, Muslims, Italians, Greeks, and Russians who used the famous baths and walked the bazaars--and the rulers who built it up and then destroyed it, including Mustafa Kemal Ataturk, the man who christened the city "Istanbul" in 1930. Thomas F. Madden's entertaining narrative brings to life the city we see today, including the rich splendor of the churches and monasteries that spread throughout the city. Istanbul draws on a lifetime of study and the latest scholarship, transporting readers to a city of unparalleled importance and majesty that holds the key to understanding modern civilization. In the words of Napoleon Bonaparte, "If the Earth were a single state, Istanbul would be its capital."

An intrepid reporter boards the Lusitania in a “vivid . . . ripping good” spy thriller from the Pulitzer Prize–winning author (The Wall Street Journal). It’s 1915, World War I is in full swing, and foreign correspondent Christopher “Kit” Marlowe Cobb is tasked with following a German intellectual and possible secret service agent traveling on the British ocean liner Lusitania. But Cobb is soon distracted from his mission by the sultry Selene Bourgani, a world-renowned silent film star who also appears to be working with German Intelligence. The more Cobb thinks he knows her, the less he really does. The secrets Selene harbors have the potential to set the whole international conflict further aflame—and they’re ignited by a German U-boat attack off the Irish coast. From the perilous waters of the Atlantic, Cobb tails Selene first into London’s darkest alleyways, then on to the powder keg that is Istanbul. Across the war-torn stages of Europe and the Middle East, Cobb must venture deep behind enemy lines, knowing full well he may not return. The second book in Robert Olen Butler’s Christopher Marlowe Cobb series, *The Star of Istanbul* “has it all: history galore, exotic foreign settings, a world-weary yet engaging protagonist, villains in abundance and a romance worthy of Bogart and Bergman” (BookPage). “[An] outstanding work of historical fiction.” —Huntington News “Butler . . . holds the reader transfixed, like a kid at a Saturday matinee.” —Booklist, starred review “An exciting thriller with plenty of action, romance, and danger . . . [a] fast-paced journey through a world at war.” —Library Journal
