Life with Vinny Leonetti gave me opportunities I'd never even imagined. Private jet trips across the country on a whim, dining at expensive restaurants, and island vacations where we soaked up the sun. But all that money also brought me danger and heartbreak. It all became too much. I walked away from that life and my chance at an all-consuming love. Though I was intent on making it on my own, not a day went by that he wasn't on my mind. And when life brought me back to the city it all began in, the danger found me before he did. As I tried to make my way back to him, the threats came at me from every side. Was my love for him strong enough to save me? And if so, would he give me a second chance?

It's been eighteen years...and he still wants her In high school, Malcolm Douglas was a bad boy who stole the heart of small-town girl Celia Patel—as well as her virginity. But

life pulled them apart...and just as well, for he'd already broken her heart. Now Malcolm is a world-famous billionaire dedicated to atoning for his sins. When he swoops back into Celia's life, he tells himself he only wants to protect her from recent threats. But the desire between them leaves them as breathless as teenagers. Will Celia ever forgive him? Maybe. If he can make today's pleasure erase yesterday's pain.

Living in LA and dating celebrities wasn't what it was cracked up to be. I found out the hard way many had a lifestyle I wanted no part of. Then David Taylor forced his way into my life. A sledge hammer breaking down my well crafted walls. He was gorgeous and sexy and intimidating. I was drawn to him in a way I had never been to anyone or anything. And I knew I couldn't have him, I was too damaged, too flawed to really connect. David saw what I was from the beginning. A broken scared girl locked away inside an aloof woman. And he was determined to free me. To make me his.

Gamers everywhere share a hidden desire deep in their hearts- that their mundane, humdrum world be replaced by the ones they play in. When freakish storms envelope the Earth, people start disappearing without a trace. Wild theories abound; is it aliens,

spontaneous combustion, or perhaps quantum entanglement? The only ones who might know are those who have vanished. An average group of gamers is setting up to start a new campaign. The storms rage across the world, but they only care about the game they are about to start. Little do they know that they would be next to disappear from the face of the Earth. Shifted to a different world, the group of friends find that the gamer's dream they had always harbored has come true, but not in the way they would have hoped. They are not there as themselves, but as the level one characters they had been preparing to play. Standing on a road with smoke rising in the distance, they would soon be given their first quest— but not the one they would have chosen. (This series contains dark themes, including but not limited to: suicide, torture, slavery, and worse.)

One night of passion convinces professional hockey player Justin Brady that Elise Parrish is the only woman for him, except for one catch—she is his teammate's younger sister.

From New York Times and USA Today bestselling author, Emma Hart, comes the second book in The Game series, and the story everyone wanted after The Love Game... She's in love with him. He's trying not to love her. One night changes everything. Aston Banks never meant to get close to Megan Harper - not even for that one night. Haunted by a childhood he

refuses to face, he knew she could break through every wall he'd ever built and tear them down without even realizing she was doing it. Betraying Braden by starting a relationship with Aston wasn't on Megan's to-do list, but the second she sees a glimpse of someone other than the arrogant ass she's come to know, she can't walk away. Aston's childhood is worse than Megan ever guessed, but as he tries and fails to push her away, it's clear her love is stronger than the demons that cling to him every day. And now, because of it, he finally has to deal with what he's buried deep down. What he doesn't want to face. What he's fought against for so long. And they have to do it all without Braden finding out. Keeping a relationship secret has never been harder.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American

and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. The Things They Carried won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Super eruptions and tectonic plate movements have left the planet in destruction. Most of civilization and humanity did not survive. Survival was hard and only the strongest and smartest managed.
