Just when you think cancer is the worst it can get, the pandemic hit and her faith was tested over and over again. As you read and witness the strength of a child, the book also touches on anxiety and depression, struggles and losses, the importance of gratitude and everything in between. and changed how we navigate the world. Never Lost Again chronicles the evolution of mapping technology—the "overnight success twenty years in the making." Bill Kilday takes us behind the scenes of the tech's development, and introduces to the team that gave us not only Google Maps but Google Earth, and most recently, Pokémon GO. He takes us back to the beginning to Keyhole—a cash-strapped startup mapping company started by a small-town Texas boy named John Hanke, that nearly folded when the tech bubble burst. While a contract with the CIA kept them afloat, the company's big break came

with the first invasion of Iraq; CNN used their technology to cover the war and made it famous. Then Google came on the scene, buying the company and relaunching the software as Google Maps and Google Earth. Eventually, Hanke's original company was spun back out of Google, and is now responsible for Pokémon GO and the upcoming Harry Potter: Wizards Unite. Kilday, the marketing director for Keyhole and Google Maps, was there from the earliest days, and offers a personal look behind the scenes at the tech and the minds developing it. But this book isn't only a look back at the past; it is also a glimpse of what's to

technologies including virtual reality and
driverless cars are going to upend our lives
once again. Never Lost Again shows us how our
worldview changed dramatically as a result of
vision, imagination, and implementation. It's
a crazy story. And it all started with a
really good map.

I started my autobiography -- "Baseball, Golf, Wars, Women & Puppies" -- with a "grabber page" from my first trip to the Vietnam War on board the USS PERKINS (DD-877). Then, I followed with a chronological rendition which covered a trip to the Korean War and another to Vietnam during my 20 years in the U.S. Navy on three other different naval vessels, but began with the chronological format of a life of a "river rat" born somewhat infamously in 1932 on the banks of Memphis. My life in sports,

approximately 16 years "moonlighting" as a photojournalist, my college education, followed by 12 years as executives with the Chicago White Sox (5) and Cubs (7), concluding with one of several ownerships of small companies rounded out my interesting career. I originally planned to continue with my three trips to the Vietnam and Korean Wars, including my injury and sad losses of shipmates and friends. Then, go to my childhood, parenthood, many exciting careers, etc., etc., etc. However, it didn't take too long for me to decide the categories overlap in too many places. Hence, A few years later

Elvis Presley arrived on the planet and eventually became internationally famous there. Memphis, long known as the "Home of the Blues," was to become also famous as the home of the "King of Rock 'n' Roll." My first high school, Whitehaven, is only a few blocks from Elvis' Graceland. And, my Southside High "bride" and I began training our dancing shoes to the big bands of the 40s and peaked with the rocking and twisting of the 50s and 60s. Although only a senior-to-be in high school, the Korean War found me an early enlistee. Why? Because I was a youngster almost entering teenage during World War II.

Everything thrilling about the "big one" for a boy that age. All the toys were guns, tanks, jeeps, warplanes, etc. The war movies were always exciting and, in most cases, the hero ended up with the female star. As I was a young budding teenager, females were becoming of more interest in my life. I have never met any male whose sex life began earlier than mine (older girls are great teachers). Also, the U.S. Navy aircraft pilots were my idols. Landing airplanes on a sea-going vessel was my kind of challenge. I was so "hooked" that I joined the Navy to become a fighter pilot. The recruiter was

surprised at how I could identify all
aircraft of nations involved in WWII. I even
memorized the horsepower of power plant(s),
plus the cruising and maximum speed, of each
airplane. My favorite was our Corsair's F4U,
a gull-winged propeller fighter. It never
occurred to me until this moment, recalling
this tidbit, but one of these planes almost
killed me. However, the "moonlighting"
(working a civilian job at night) on shore
duty between these wars helped prepare me for
my career highlight era in Major League
Baseball. There is no doubt about it, my
"leash of life" is anchored to the

sportsworld. My youth was playing or inventing sports orientated things. It gave me a second glance by people in the sportswriting and sportscasting fields. This all led to sports columnist and sports editor jobs in the newspaper business. This, along with learning the print business, was not only a challenge -- which I always relished -- but was mucho fun. The many hours and stress involved led to more and more alcohol. Which definitely made a "honky tonk man" out of me where there is plenty of wine, women, and song. The latter threesomes were like a personal little cloud that follows me

Throughout most of this autobiography, I wasn't able to attend college fulltime until I finished my 20 years in the U.S. Navy. Then finishing "With Honors" gave my mother extreme pride after her total education was a small (12 total students) high school in sticks of Mississippi. I had almost completed by Masters Degree and CA Lifetime Teachers Credential when I got into Major League Baseball and went to Chicago.
